

FINANCIAL SERVICES

Northern Kentucky presents a quality, low-cost alternative to traditional markets like Chicago or New York, without giving up access to a strong workforce trained in business, finance, technology and data analytics; an international airport; and big city amenities. Northern Kentucky's market advantage is demonstrated by the continued growth and success of Fidelity Investments, Citi, and Huntington Bank.

FOOD & FLAVOR

Northern Kentucky is well poised to support the entire food manufacturing supply chain from R&D to manufacturing to packaging and distribution. The strong talent base of both professional and production workers has attracted ADM's global technology center, Tyson Food's Hillshire Brands production facility, Kellogg's Keebler cookie manufacturing line, and Castellini's fresh produce distribution headquarters.

LOGISTICS TECHNOLOGY

Northern Kentucky is an obvious choice for logistics, with more than 100 companies already in the region. By locating in Northern Kentucky, you can take your business to the next level through access to a strong production workforce, a professional workforce trained in supply chain analytics and informatics, and a competitive cost of doing business.

AVIATION & AEROSPACE

Northern Kentucky offers aviation and aerospace companies access to four active runways at a top regional airport; proximity to DHL and Amazon Prime Air's cargo hubs and GE Aviation's global headquarters; and manufacturing expertise through companies like Safran Landing Systems and Meggitt Polymers & Composites.

AUTOMOTIVE

Perfectly situated on the I-75 corridor between the northern and southeastern OEM markets, Northern Kentucky is a top choice for automotive suppliers and component manufacturers. More than 40 automotive related companies are located in Northern Kentucky including Robert Bosch Automotive Steering, Mubea, Meritor Heavy Vehicle Systems, Linamar, Celanese, BOGE Rubber & Plastics, Balluff, and Fuji Autotech.

LIFE SCIENCES

With a strong base of chemical, plastics, and metal manufacturing and a large healthcare industry, Northern Kentucky is the optimal location for Life Science companies to develop and move their product to market. Training and apprenticeship programs ensure a well trained production workforce, while degrees in Health Informatics and Health Economics and Clinical Outcomes Research ensure the professional workforce is equipped with skills in data analytics and health information systems.
